

I don't want people to lose their homes,  
but... I wish PROJECTS would never come  
back to be apart of New Orleans landscape.  
They are NOT a good or humane solution to  
anything! They just make things worse  
(continue in same pattern)!!! I think project-  
dwellers should have their own apartments  
in nice, green neighborhoods. It would  
make ALL the difference.
